To Whom It May Concern,

I am happy to recommend Adree Fairbanks for a teaching position. Adree was a student teacher in our classroom this year. She has shown herself to be a bright and enthusiastic young educator.

She showed her skills at whole group and small group teaching. Because our classroom has two half day Kindergarten classes, she had the opportunity to teach the same lesson twice each day. This was a great learning exercise. Adree often took the time to adjust a lesson for the afternoon class to make it just right.

Adree's lessons were creative, meaningful and appropriate for five and six year olds. She also would deal with behavior issues quickly, confidently and with kindness.

I know she has taken on an even bigger role in the classroom during her First Grade student teaching experience. I am confident that she will be an excellent Early Education Teacher.

Sincerely,

Elaine G. Becker  
Paraeducator for Jennifer Vasquez's  
Kindergarten Class
